Don't just be compliant... be

CALIFORNIA COOL

Made with a new innovative granule technology, GAF California COOL™ Shingles lock in rich, vivid color never before seen in a cool roof.

Why go elsewhere when you can install a great selection of highly reflective shingle colors to meet your cool roofing needs!

California Code Compliance

With California COOL™ Shingles, you get proven performance and reliability as well as beauty — plus potential cooling cost savings!¹ They also:

- Can be used to comply with Title 24 cool roof requirements
- Are rated by the Cool Roof Rating Council
- Meet the cool roof requirements of the Los Angeles Green Building Code

¹Energy cost savings are not guaranteed and the amount of savings may vary based on climate zone, utility rates, radiative properties of roofing products, insulation levels, HVAC equipment efficiency, and other factors.

The Darkest “Cool” Shingle You Can Buy!

Before now, if you wanted a highly reflective dark-colored roof that met the cool roof requirements of Title 24, you would have had to settle for colors that were much less vibrant than those available for traditional shingles.

But now, innovative granule technology has changed everything! New EcoDark™ granules produce vibrant color never before seen in a cool roof.

You can finally have the rich, vibrant colors you've always wanted in a highly reflective shingle, including Charcoal, the darkest cool color available.

So stay cool and make a splash with California COOL™ Shingles!

HARCOAL*

This dark, rich gray is a favorite thanks to its flexibility. Pairing well with both warm and cool colors, **Charcoal** makes a statement on a wide range of home styles.

*Also available in Timberline Ultra HD® Reflector Series

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

HICKORY*

This appealing brown shade has the added element of a red undertone. **Hickory** looks truly grand on homes with warm neutrals of brown and beige as well as with yellows and golds.

*Also available in Timberline Ultra HD® Reflector Series

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

STONE GRAY*

This charming gray has a blue note to it, making it cooler and more versatile. A natural complement to all other grays and blues, **Stone Gray** also performs well alongside yellows, creams, and ivories.

*Also available in Timberline Ultra HD® Reflector Series™

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

SAGEWOOD*

Blending beautifully with nature, **Sagewood** straddles the line between warm and cool tones. It works extremely well as a companion to sages, creams, ivories, and any shade of beige.

*Also available in Timberline Ultra HD® Reflector Series

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

SANDALWOOD*

Reminiscent of a windswept shoreline, this inviting shingle pairs comfortably with beige/brown and golden tones. Extremely versatile and welcoming, **Sandalwood** complements virtually any style of home.

*Also available in Timberline Ultra HD® Reflector Series

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

COASTAL SLATE*

This cool gray has a lovely green undertone — exactly like traditional slate. **Coastal Slate** coordinates effortlessly with both grays and greens on the cool side, as well as with white, cream, and ivory exterior colors.

*Also available in Timberline Ultra HD® Reflector Series

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

AGED CHESTNUT*

This nature inspired brown pairs beautifully with most other warm exterior colors, such as beige, taupe, cream, gold, and yellow.

Aged Chestnut's genuine wood-shake look will give your home a warm, inviting feel.

*Also available in Timberline Ultra HD® Reflector Series

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

BIRCHWOOD*

This soft, neutral shade of gray flatters homes that feature clean lines. Characterized by its subtle tints, **Birchwood** harmonizes perfectly with city or suburban environments.

*Also available in Timberline Ultra HD® Reflector Series

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

TIMBERLINE HD REFLECTOR
SERIES
LIFETIME HIGH DEFINITION SHINGLES

OPPER CANYON

This shingle makes a defining statement.

Copper Canyon

dances with several different hues, highlighted with a spicy nutmeg tone throughout — making it an ideal choice for pairing with both grays and browns.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

GOLDEN AMBER

Golden Amber

exhibits a refreshing, warm tone, with hints of brown, cinnamon, and beige. This shingle works very well with lighter exteriors, such as clay and other tan-based colors.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

HARCOAL

This dark, rich gray is a favorite thanks to its flexibility. Pairing well with both warm and cool colors, **Charcoal** makes a statement on a wide range of home styles.

GRAND SEQUOIA® REFLECTOR
LIFETIME Designer SHINGLES SERIES

CEAN GRAY

This distinctive gray has cool blue-green nuances. **Ocean Gray** is a perfect background for grays, whites, and blue-greens, as well as white, cream, and ivory exterior colors.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

CRRC Product ID# 0676-0142

SAGEWOOD

Blending beautifully with nature, **Sagewood** straddles the line between warm and cool tones. It works extremely well as a companion to sages, creams, ivories, and any shade of beige.

CRRC Product ID# 0676-0139

SANDALWOOD

Reminiscent of a windswept shoreline, this inviting shingle pairs comfortably with beige/brown and golden tones. Extremely versatile and welcoming, **Sandalwood** complements virtually any style of home.

TIMBERLINE[™] COOL[™]SERIES[®]

ENERGY-SAVING SHINGLES

C OOL BARKWOOD

This popular brown is warm and inviting. **Cool Barkwood** is an outstanding choice for pairing with most warm colors, but this shingle is just as much at home with blues and greens.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

CRRC Product ID# 0676-0041a

C

COOL ANTIQUE SLATE

This shingle's color has an impressive tradition in roofing, going back decades. **Cool Antique Slate** is a tried-and-true companion to brick and stone, but it also favors browns and beiges as well as grays and whites.

CRRC Product ID# 0676-0043a

C

COOL WEATHERED WOOD

Truly the perfect neutral color, **Cool Weathered Wood** complements a broad range of hues — especially clay, the current most popular color for home exteriors.

CRRC Product ID# 0676-0042a

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

OLDEN PRAIRIE

The soft, warm glow of **Golden Prairie** comes from its delicate mixture of golds, beiges, and touches of rust. And, since no other triple-layer asphalt shingle matches the thickness of our premium Glenwood[®] Shingle, this will be a truly illustrious addition to your home.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

A

MBER WHEAT

Inspired by the beauty of America's heartland, the warm tones of **Amber Wheat** are accented with cool notes. It complements warm beiges, golds, off-whites, and warm grays, as well as pale terra cotta, yellow brick, and limestone.

CRR Product ID# 0676-0099

A

RCTIC WHITE

This shingle provides value and performance with a classic shadow effect. **Arctic White** soothes the senses while charmingly enhancing many cool-toned exteriors.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

CRR Product ID# 0676-0089

WHITE

A timeless choice, **White** is very neutral and flexible, pairing well with all grays, whites, greens, blues, yellows, creams and ivories.
